

## ILM qualifications in Leadership and Management

### Date:

### Description:

ILM Leadership and Management qualifications are offered for delivery on an in-house basis only. This provides flexibility of programme design so that delivery can be customised to meet a range of different learning outcomes and organisational objectives.

We are pleased to offer:

- ILM Level 3 Award / Certificate in Leadership and Management
- ILM Level 4 Award / Certificate in Leadership and Management
- ILM Level 5 Award / Certificate in Leadership and Management
- ILM Level 7 Award in Leadership and Management

Each programme offers a wide range of core management skills and we will work with you to select appropriate units and discuss methods to support and complement delivery. Usually this will include face to face learning, independent learning and research and could also include coaching and project based activities.

Achievement of ILM qualifications is through the successful completion of a number of assignments.

Please contact our L&D team using the email address on this web page.
