

Using multiple intelligences to tap into new thinking

Date:

Jul 01, 2020 14:00 - 15:30

Venue:

Webinar

Description:

Do you ever notice that your thinker gets stuck when they can't find the words to articulate what is going on for them? Or that they talk using pictorial language, such as metaphors? Or that there appears to be so much going on in the story they are telling that they can't see the wood for the trees?

Maybe it's time to tap into a different sense other than speaking.

Content:

Clare will demonstrate alternative creative options for getting your thinkers unstuck, moving them towards new thinking that might otherwise have felt unattainable. Come ready to play a little.
